

We neighbors of Jim Mitchell support his request to purchase the unused section of Lot 189 located on the southwest corner of French Island. We understand that the city will retain ownership of a portion of this land to guarantee public access to the Penobscot River from the western end of Nadeau Street and also a surrounding portion of the lot adjacent to the river. All portion of the Lot 189 to the north of Nadeau Street is reserved by the city for possible use as a parking area.

Mr. Mitchell wants to use the interior portion of Lot 189 to install gardening beds for the production of fresh food for the community, as well as for planting of fruit trees and bushes. We urge the City Council to approve his request to purchase this small parcel of land so that he can pursue his vision of a small, intensely gardened demonstration of food production which will promote food sovereignty in our neighborhood.
